The Indiana Weatherization Assistance Program

Field Guide

Purpose

The Indiana Field Guide provides Building Technicians (BT-1), Heating Technicians (HT-1) and Building Analysts (BA-1) standards and procedures for the Indiana Weatherization Assistance Program. It contains direction for those seeking certification of skills. It is also a resource to address questions and problems we face in the field every day.

Modification Process

This document will be updated as program standards and procedures change. The Field Guide will be reviewed annually and changes may occur more frequently. Whenever changes occur, Indiana Field Guide inserts with instructions will be distributed.

Acknowledgments

The Building Performance Institute (BPI)

Saratoga Technology and Energy Park
10 Hermes Road
Suite 200
Malta, NY 12020

John Krigger of Saturn Resource Management provided the illustrations used in this field guide. The illustrations were originally developed for use by BPI and they are used here with permission of both BPI and Mr. Krigger.

Table of Contents

Chapter 1 - Weatherization Process	
Weatherization Process Flowchart	1-2
Chapter 2 - Building Model	
Site-Built Waiver Audit Priority List	2-2
Mobile Home Waiver Audit Priority List	2-9
Refrigerator Replacement Program	2-15
Building Energy Model	2-22
Chapter 3 - Health & Safety	
Health and Safety Testing	3-2
Combustion Appliance Zone Testing	3-8
Draft Testing	3-14
Carbon Monoxide Testing	3-19
Visual Health and Safety Inspection	3-21
Moisture	3-23
Lead Safe Work Practices	3-31
Appendix A	3-50
Chapter 4 - Heating	
Gas Appliance	4-3
Oil Heating	4-44
Combustion Testing	4-45
Fuel Oil Storage	4-55
Gas Boilers	4-58
Electric Furnace	4-68
Heat Pump	4-72
Heat Exchanger Testing	4-78
Furnace Heat Exchanger Diagnostics	4-79
Furnace Replacement	4-84
Distribution Systems	4-108
Distribution System Inspections	4-109
Solid Fuel	4-118
Chapter 5 - AirFlow	
Airflow Standard	5-2
Ventilation	5-4
Low Airflow Housing	5-8
When Not to Airseal	5-10
Blower Door Testing	5-12
Blower Door Assisted Airsealing	5-17
Diagnostics For Forced Air Distribution Systems	5-24
Mobile Home Duct Leakage	5-26
Pressure Balancing Rooms	5-32
Zonal Pressure Diagnostics	5-34
Airsealing Economics	5-42
Evaluation Post Inspection	5-44
Chapter 6 - Insulation	
Thermal Boundary	6-2
Wall Insulation	6-4
Attic Insulation	6-6
Rafter Ceilings	6-10
Kneewall Insulation	6-12
Attic Ventilation	6-14
Basements and Crawl Spaces	6-16
Mobile Homes	6-19
