Or visit <https://tinyurl.com/>

Take your utility's water loss program from audit to action! This pilot workshop provides a comprehensive introduction to the AWWA M36 methodology, the gold standard for water loss control. Participants will receive expert training on the AWWA free water audit software (version 6). Tailored for small utilities, this course offers the essential tools needed to evaluate system performance and manage water losses after the audit.

June 2, 2026, 8:30 AM – 5 PM

INCAA 1845 W 18th St

Indianapolis, Indiana
